LUCTRA® LITE

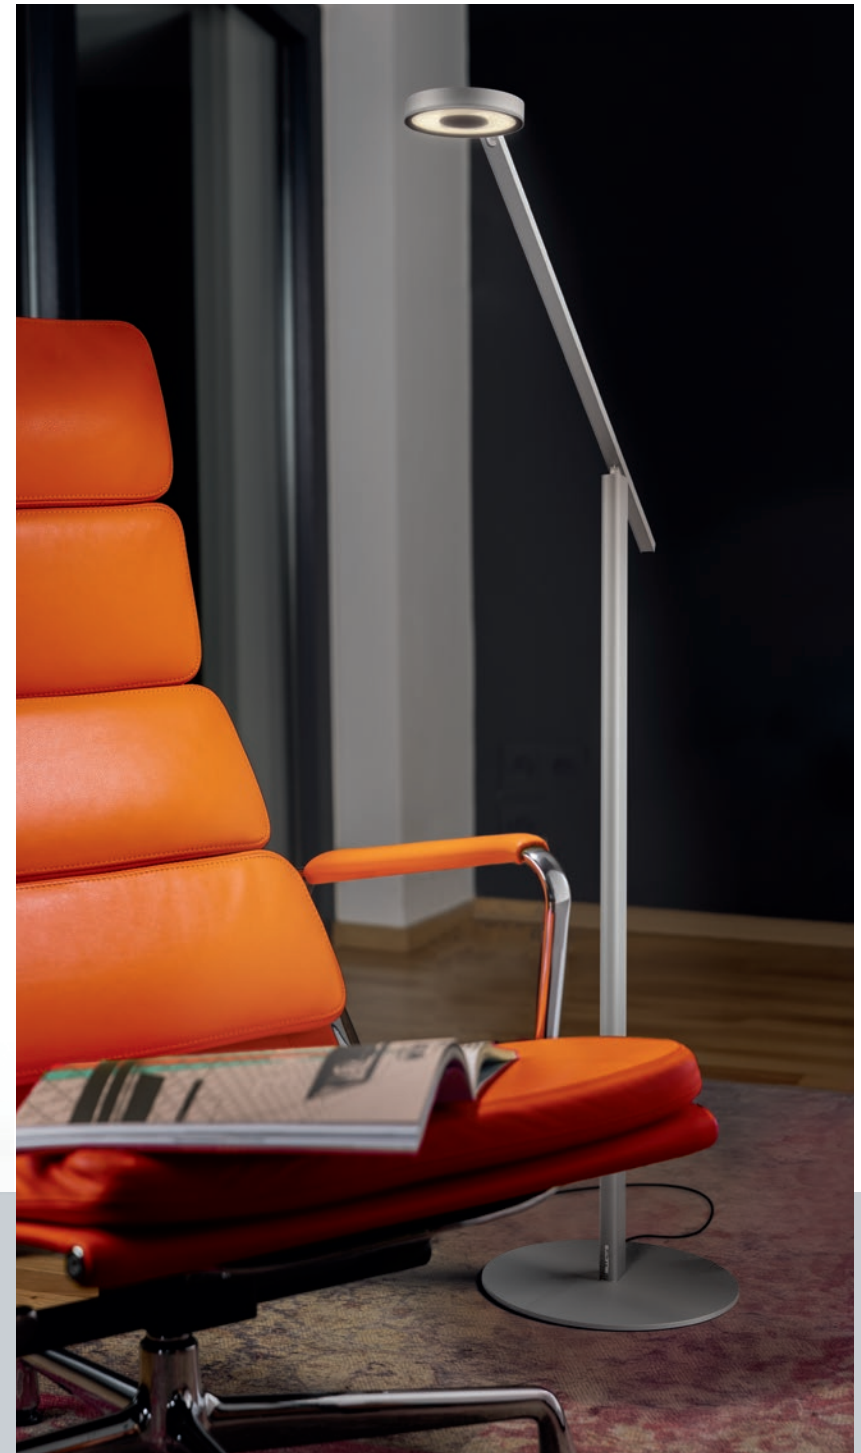

- Perfect lighting
- Supports health and well-being
- Innovative gesture control

Our LED lamps support the body's individual daily rhythm and internal clock by providing the optimum colour temperature and light intensity.

By realistically imitating daylight, the lamp encourages healthy hormone production and mental well-being.

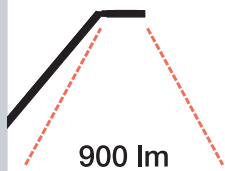

Thanks to their universal USB-C ports, these lamps are very flexible in use. Connect them to your laptop or powerbank to use them on the go.

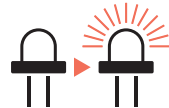

2.700 –
6.500 K

High
light current
of 900 lm

0 sec. > 100%

Instant
full light

More focus and attentiveness with colder light

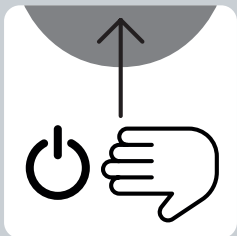

More well-being and relaxation with warmer light

Customised lighting

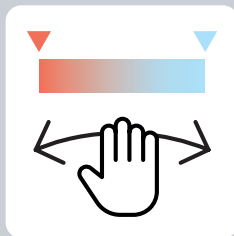

The LUCTRA® TABLE and FLOOR LITE lamps use Human Centric Lighting (HCL), which draws on findings from research into the biological effect of light. The lamps are infinitely dimmable and the light colour can be adjusted to the user's personal circadian rhythm.

„The optimal lighting at your workspace – for less eye strain, maximum concentration and sustainable productivity.“

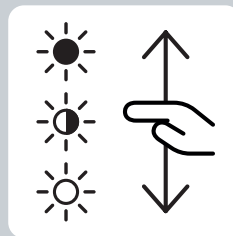

Innovative gesture control

Turning on and off:
waving a hand in front of the sensor turns the lamp on and off.

Changing the light colour between cold and warm white:
waving a hand from left to right or vice versa switches to the next colour in the spectrum.

Dimming:
moving a hand slowly up and down within the light cone activates the dimmer.

The TÜV GS mark confirms that the LUCTRA® LITE luminaires have been independently tested and fulfil the highest safety and quality standards.

*TÜV applies to Prod. code 9214 (01, 02, 23) and 9288 (01, 23)

Dimensions and details

| Product | Power supply | Prod. code | Colour |
|--------------------|---------------|------------|--|
| LUCTRA® TABLE LITE | Euro standard | 9214 | 01 black, 02 white, 23 silver, 32 petrol |
| | UK standard | 9213 | 01 black, 02 white, 23 silver |
| LUCTRA® FLOOR LITE | Euro standard | 9288 | 01 black, 23 silver |
| | UK standard | 9289 | 01 black |

A higher Color Rendering Index (CRI) of more than 90 ensures natural colour reproduction, which makes fine details and colour nuances more visible – ideal for precise working.

The Institute for Health and Ergonomics (Institut für Gesundheit und Ergonomie; IGR) has awarded LUCTRA® LITE the

'Ergonomic Product' seal of quality. This confirms that the table lamps from LUCTRA® have a positive effect on health, well-being and performance in the workplace.
